Subject: Qlaim 1816 N Scarr - Update

Morning Louisa & Nick,

Apologies for not updating you yesterday, I was in the process of drafting you an update but was called to an emergency meeting and was unable to complete the update.

Following our conversation on Thursday I had calls with Davies Claims Handler, Bioresponse and Lizzie.

I discussed the deployment of air scrubbers with Darren at Bioresponse he has advised that the air scrubbers were not originally specified but took the decision to install to provide some reassurance that airborne particulates are being captured.

I have enquired as to the present position regarding the contents/BER list with Darren, He has advised the contents are in store, a list has been part prepared but not finalised as they were advised you would not accept their return.

We discussed the indoor air quality test and Darren has explained that whilst this can be completed it will not provide you with the reassurances that soft furnishings may have absorbed airborne pathogens. I have explained to Darren that a contact of mine, Kristine Reilly-Blake of Healthy Homes and beyond, has provided me with details of a possible test which could provide the results required. The test is detailed below and I have sent this information to Darren who has advised he will discuss with the Loss Adjuster.

https://www.envirobiomics.com/product/black-water-human-toilet-waste/

We discussed the presence of loss related damage to your first floor. Darren has advised he detected moisture related damage which could possibly have been attributed to the loss. He has reported this to Davies and is awaiting a response.

I have discussed the invoices previously presented for the VAT on strip-out and alternative accommodation costs. Lizzie has presented the VAT invoice but has asked if you can discuss the alternative accommodation with the issuer as the invoice refers to the invoice being for June's accommodation and needs to be amended to read July.

I discussed the contents with Lizzie and your possibility of health risks especially as you had previously contracted a super bug Louisa. Lizzie has asked if you would be prepared to share more details of the bug you contracted as she would discuss this with your insurance company.

Lizzie has also asked if you would be able to assist in collating a list of contents. I realise Bioresponse are producing a list but Lizzie has advised she would use this information to discuss how to treat your contents with the insurance company.

I've asked Lizzie to confirm if your property is eligible for a build-back-better grant. She has advised she will investigate and respond to me shortly.

Best Regards

Andy Lyne

■Dear Andy,

We just wanted an update as to where things are concerning Bio Response and the soft furnishings etc. When we last spoke on Monday you told us you were in the office on Tuesday and would chase them. Plus send us the details of the woman you met concerning mould and pathogens. We then spoke to Bio Response who said they had had a call with Davies's last Friday and had we been told the results of that call. Do you know the result of this call?

It is now Friday again and we have heard nothing further. I know Nick has tried calling you to discuss. Did you manage to gain anything from either Davies's or Bio Response this week concerning the damage to soft furnishings, kitchen and testing of upstairs? As you are very aware we feel Bio Response have so far been inefficient and at time's sloppy in their actions.

Thanks Andy, we look forward to hearing back.

Louisa Scarr
