Adam Clutterbuck ACIOB

Building Surveyor

Associate of the Chartered Institute of Building

Professional Experience

Summary of Experience

Building surveyor, restoration, and waterproofing (‘tanking’) specialist with 40 years’ continuous experience.

Founding member of Renlon Group Plc, undertaking surveys, and reporting for water-proofing, damp-proofing, and timber preservation, with responsibility for technical aspects on more than 20,000 buildings in the UK between 1981 and 2002.
Has personally undertaken surveys and provided advice on more than a thousand traditional and new-build basements.

Heritage projects include: St Paul’s Cathedral, The Royal Opera House, The Royal Mint (Tower Hill), various Royal palaces, and numerous listed buildings (Grades I, II* & II).

Clients include: Leading insurers & loss adjusters, law firms, The Royal Household, The Grosvenor Estate, Crown Estates, Canary Wharf Group, Battersea Power Station Development Company, Qatari Diar Real Estate Company.

A good working knowledge of the diagnosis and analysis of water and moisture problems in buildings, timber repairs and all recognised waterproofing methods and practices, including leak prevention, flood resistance and resilience measures.

Appointed 2014 to 2018 as Waterproofing Consultant for the Battersea Power Station Development (Phases 1, 2 & 3), and on other notable construction projects and refurbishments.

Experienced in investigation of escape of water damage and properties affected by flood water.
Adviser for drying and restoration works for ‘high net worth’ (HNW) properties and listed/period buildings, including quantity surveying and cost analysis.

Training and extensive experience with identifying and remedying problems with fungal decay, mould, timber infestation, humidity, hardwood flooring, and moisture measurement.

Recent Experience:

Home & Commercial - 2000 to present: Instructed by architects, surveyors, engineers, insurers, loss adjusters, lawyers, utility companies and commercial/private clients to provide independent technical consultancy for water/moisture issues with buildings, insurance/liability claims, acting as an expert witness, waterproofing consultant/building surveyor.
